ABOUT TOMBOW

History

From Japanese pencil manufacturer to stationery supplier for the creative world

From the very first pencils to the current range, Tombow has always developed new products – including many innovative ideas.

100+ years of excellence in manufacturing

Today Tombow is an important player for office, school, art, and crafts products worldwide. Serving consumers and businesses around the globe, Tombow was established in Japan in 1913 as a supplier of wooden pencils to Japanese students. These beginnings, we have upheld a history of unparalleled customer service.

Tombow's MONO brand is known throughout Japan for its top-quality pencils and erasers. Tombow has expanded the company's portfolio into a global supplier of correction tape, fine writing pens, liquid glue and adhesive tape, drawing pencils, colored pencils, erasers, and art markers manufactured in facilities located in Japan and Southeast Asian countries.

Our factories employ vertical integration to ensure the highest quality production process, and our products are known for their high performance due to Japanese high quality standards for testing and quality assurance. Worldwide operating divisions distribute Tombow branded products in their respective markets.

Environmental Responsibility

Tombow promotes harmony between the global environment and its business activities to contribute to society through the development, production, and sale of stationery and it continues to be a people- and earth-friendly company.

We develop and produce environmentally friendly and safe products and promote environmental awareness through sales.

We eliminate waste of products and activities and manage resources and energy with care.

We strive to improve the environment and prevent pollution through internal and external collaboration.

Production of environmentally friendly products

- Environmentally friendly products made from recycled materials
- Refillable long-lasting products
- Environmentally friendly products made of wood certified for legality and sustainability

Tombow ABT Dual Brush Pen

The Tombow ABT Dual Brush Pen is a water-based brush pen with two tips: a flexible nylon brush tip and a fine polyester tip. The line width of the brush tip varies depending on the pressure applied and can be up to approx. 10mm. The polyester tip with a line width of approx. 0.8 mm is perfect for fine lines. Due to the water-based ink, colors can be mixed with each other and blended with water to create wonderful watercoloring effects and color gradients. One ink tank provides long-lasting use of both tips. The Tombow ABT Dual Brush Pen is available in 107 colors + blender and different sets. The versatile pen is especially suited for hand lettering, watercoloring, bullet journaling and much more. The ink is odorless and not lightfast.

Blending Kit

The 4-in-1 Blending Kit consists of practical tools for blending the colors of water-based brush pens. The first tool is a colorless Tombow ABT Dual Brush Pen Blender with two tips: a flexible nylon brush tip and a fine polyester tip. To clean the tips, simply wipe them several times on a clean paper. The second tool is a refillable, compact Blending Mister (empty) to spray water onto the blending palette or directly onto the paper. The third is a washable, handy blending palette. The fourth tool is a guide with practical tips concerning the blending of colors. The Blending Kit is especially suitable for drawing with Tombow ABT Dual Brush Pens and of course also for all other, water-based dye inks.

 Blending Palette, Blending Guide

4 003198 102002

Blending Mister

The Blending Mister is a compact bottle (empty) to fill with water. It is a practical tool to blend colors and to create color transitions and gradients. Simply sprinkle paper with water and then apply color to it or mix colors on a blending palette by sprinkling with water. The Blending Mister is especially suitable when drawing with Tombow ABT Dual Brush Pen and of course also for all other, water-based dye inks. Capacity: 8 ml.

4 003198 102033

Water Brush

The refillable water brush is a handy tool for watercoloring techniques. Easy to fill and refill by unscrewing the barrel. By squeezing the barrel the flow of water is regulated. The tip can easily be cleaned with water. The water brush is suitable for watercoloring and blending techniques and therefore perfect in combination with Tombow ABT Dual Brush Pen or other water-based dye ink products. With its protective cap, the water brush is ideal for on the go. Available with three different shaped tips - fine, medium, flat.

Tombow ABT PRO

The Tombow ABT PRO is an alcohol-based marker with a slim case and two tips: a broad chisel tip and a fine nylon brush tip, which is particularly flexible and dynamic. When no more pressure is applied to the tip, it returns to its original shape. The alcohol-based ink provides a strong, streak-free coverage by repeated ink application. The slow ink flow is easy to control, dries quickly and allows for precise drawing. By layering, the ink effects, depth and shadows can be created. This makes it possible to create color transitions entirely without water. The Tombow ABT PRO marker is ideal for illustrations, manga and graphic lettering. Available in 107 colors + blender and different sets. Note: Store pens horizontally, close caps tightly.

MONO edge

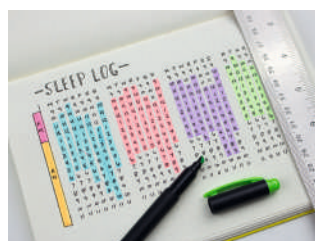

MONO edge is a creative highlighter with a broad chisel tip (approx. 3.8 mm) and a fineliner tip (0.5 mm). The six vibrant colors are perfect for color-coding and decorating planners or journals. The quick-drying ink does not smear or bleed through most papers. The tips have a unique design with protective plastic sleeve that keeps metal rulers and stencils clean. Available in six colors and as set of 6. Plastic parts made of over 70% recycled material.*

Fudenosuke Brush Pen

The Fudenosuke Brush Pen has an elastic brush tip and is especially suited for calligraphy, sketching and outlines. The line width varies from thin to wide depending on the pressure applied on the tip. Available with two different tips: Hard tip, which is easier to control and particularly suitable for delicate letterings and soft tip for larger letterings such as place cards. Fudenosuke is available in various versions and colors: hard tip in black, basic and neon colors, soft tip in black and special pastel colors for black paper, twin version with two soft tips (black and gray). Water-based ink with color pigments, odorless.

MONO drawing pen

The fineliner MONO drawing pen is available until summer in 3 widths: 01 (0.24 mm), 03 (0.35 mm) and 05 (0.46 mm). As of summer 2023 it will be available in new design and eight different widths: 005 (0.21 mm), 01 (0.26 mm), 02 (0.30 mm), 03 (0.38 mm), 04 (0.40 mm), 05 (0.44 mm), 06 (0.54 mm) and 08 (0.58 mm). Due to the long metal tip, the fineliner can also be used with stencils or rulers. The ink is pigment- and water-based. The MONO drawing pen is suitable for technical drawing, illustrations, writing, manga, urban sketching, and for creating outlines. Ink color: black.

MONO twin

The MONO twin marker has two tips: a round tip (approx. 0.8 mm) and a fine tip (approx. 0.4 mm). The ink is oil-based, water-proof and dries quickly without smearing. It writes opaquely on different materials like glass, stone and wood. Perfect in combination with the bright colors of the Tombow ABT Dual Brush Pens. Available in three colors and as a set of 3. Plastic parts made of over 70% recycled material.

MONO 100

The MONO 100 is a high quality pencil. Due to its dark graphite with high density it provides a most intensive contrast. The MONO 100 is coated in a fine black lacquer. It is available in 17 degrees of hardness for different application areas. 9H - 6H (extreme hard) for special purpose like Litho work. For technical detail drawing you may use very hard 5H - 3H hardness. 2H-H (hard) for geometric and technical drawing. Excellent for writing and linear drawing is HB - H (medium). B - 3B (soft) for free-hand-drawing and writing. Very soft 4B - 6B for artistic drawing, sketches and designs.

8900 Pencil

The 8900 Pencil is a classic from Japan, first produced in 1945. The traditional design with the retro-style cardboard box has remained almost unchanged since 1948. The 8900 Pencil has an high-quality appearance due to the fine lacquer finish. One box contains twelve 8900 pencils in HB hardness in original unsharpened form.

MONO graph

The MONO graph is an elegant mechanical pencil with innovative features for the most comfortable use. It has a 4-mm metal tip for precise drawing, less lead breakage and comfortable working with ruler or templates. The MONO graph has an innovative „shaking“-mechanism. The lead can be extended either by shaking the pencil or by pressing the clip. With integrated, refillable eraser. The MONO graph is perfect for outlines, technical drawings, comic/manga and much more. Available in nine colors. Line width: 0.5 mm, degree of hardness: HB. Lead and eraser refillable.

IROJITEN

The IROJITEN are elegant color pencils for hobbyists. Solid, wax-based leads are ideal for creating precise lines and details. The colors are smudge-proof, water-resistant and have a moderate lightfastness. Stylish creamy white lacquer finish with color name and color number on each pencil. There are 100 different shades available individually and also in sets. The name „IROJITEN“ means „color dictionary“ in Japanese, therefore the 3 available sets of 30 colors each remind us of a dictionary, having each set 3 book-like cases with 10 pencils each. The IROJITEN are ideal for illustrations, bullet journaling, (urban) sketching and to give a special finish to letterings.

Paper

Bristol paper

The Bristol paper is a high-quality, bright white drawing paper with smooth surface and high opacity. It is ideally suited for color gradients and layering. Perfect for water-based brush pens, alcohol-based markers, fineliners, pencils and ink. For illustration, drawings, sketches and much more. 250 g/m² (120 lbs). Acid-free and eraser-resistant. 25 sheets. Available in the formats A4, A5 and A6.

Paper

Watercolor paper

The Watercolor paper block consists of high-quality, creamy white and hot-pressed watercolor paper. It is ideal for using the Tombow ABT Dual Brush Pen as watercolor, as well as for some dry techniques. The block is glued on both sides to keep the paper smooth. The stability and strength of the paper offers excellent flatness when wet. 300 g/m² (140 lbs). Acid-free, lightfast and age-resistant. 15 sheets. Available in the formats 24 x 32 cm (9.4 x 12.6 inch) and A6.

Layout paper A4

White, semi-transparent layout paper. Coated backside prevents ink from bleeding through. Ink does not get immediately absorbed by the paper, making it possible to mix colors. Particularly suitable for sketching with alcohol-based markers. Acid free. 75 sheets. A4 (8.27 x 11.69 inch), 75 g/m² (35 lbs).

Application Sets

Lettering Sets

The lettering sets contain all materials needed for either beginners in the world of lettering or for those with advanced knowledge in lettering. Both sets include an instruction guide with tips and tricks for each lettering level. The sets and instructions are put together and designed by lettering artist „Frau Hölle“. The core of both sets is the Tombow ABT Dual Brush Pen with flexible brush tip and fine bullet tip in various colors. As complementary products, both sets contain: MONO 100 pencil (degree of hardness: 3H) for sketching guidelines, brush pen Fudenosuke with a fine brush tip, permanent black marker MONO twin for outlines and eraser MONO XS for clean and exact erasing of guidelines.

Application Sets

Blended Lettering Sets

The Blended Lettering Sets, developed in cooperation with lettering artist and illustrator Tanja „Frau Hölle“ Cappell, combine everything needed for lettering with harmonious color gradients. Including instructions by Frau Hölle for the blending technique in handlettering. Products: Tombow ABT Dual Brush Pen with a fine tip for creating exact lines and a wide brush tip for broad color application. Colors can be mixed together and diluted with water. Fudenosuke for drawing precise lines and outlines. Smudge-proof pencil MONO 100 H for erasable outlines and sketches. Eraser MONO M for the clean and precise erasing of guidelines. Blending palette for mixing and refillable water brush (empty) for picking up the water-based ink.

Watercoloring Sets

The Watercoloring Sets contain the necessary materials to create watercolor illustrations, including instructions with tips and tricks. The sets and instructions are put together and designed by the artists „May and Berry“. Both sets contain five colors each of the Tombow ABT Dual Brush Pen with a fine tip and a brush tip. The colors can be used as watercolors and can be blended. As complementary products each set contains: One blending palette for blending colors and one fillable water brush (empty) for applying colors. Furthermore, one pencil MONO 100 for guidelines, one eraser MONO dust CATCH for clean and precise erasing and one black MONO drawing pen for outlines.

Creative Study Kit

The Creative Study Kit accompanies students through their studies and help them organize themselves. With four different writing colors (black, blue, red and green) the included ballpoint pen Reporter 4 is versatile and is perfect for writing colorful notes. The MONO edge highlighter with double tip is offered in this set in four different colors. The wide chisel tip is ideal for highlighting text passages, while the fine round tip can be used to add notes. The TwinTone fiber-tip pens with fineliner tip and wider bullet tip comes also in four colors in this set and is ideal for writing, creatively decorating notes or creating small doodles. The TwinTone and MONO edge in this set are color coordinated.

About Studygram:

Studygram is about presenting learning content in a creative and organized way: An eye-catching heading, color-coded notes and illustrative drawings - it should be as colorful, clear and thus memorable as possible. The Creative Study Kit from Tombow is tailored to the needs of the target group: The Reporter 4 includes a ballpoint pen with four different writing colors, which is ideal for writing colorful notes. With four MONO edge highlighters, notes can be highlighted in color and finely underlined. And for colorful headlines and doodles, the four TwinTone double-fiber markers with their wider round tip and narrow fineliner tip are ideal.

Application Sets

Urban Sketching Set

Urban Sketching is becoming a global art movement. You draw what you see on the spot or photograph the motif to finish it later at home. The Tombow Urban Sketching Set contains a selection of matching Tombow products that can be perfectly combined with each other, a step-by-step guide by artist Carla Kamphuis and a lovingly designed, high-quality metal box.

4 003198 143661

About Urban Sketching

Urban Sketching comes up as a global art movement. The followers of this movement are called Urban Sketchers. Urban Sketchers try with their drawings to show the places and the moments as they see them with their eyes. This is done in everyday places as well as traveling. Urban sketching also sees itself as a kind of counter-movement to fast consumption. A photo is quickly taken, which leads to the fact that one doesn't perceive the moment and the motive with all its details. With Urban Sketching, you try to slow down your life a bit more and enjoy the art you have created.

About One Line Art

Pablo Picasso, the Spanish painter, graphic artist and sculptor can be considered the founder of One Line Art. Together with fellow artist Henri Matisse, Pablo Picasso designed black-and-white artworks characterized by simplified, curvy lines and contours. That was in 1950! One of the most famous works is probably the Dove of Peace, which was also created with only one continuous line. It shows impressively that only one line is enough to break everything down to the essentials. The art is simple, clear and aesthetic.

Illustratorin: Heinke Nied (@silberstolz)

Application Sets

Manga Beginner Set

The Tombow Manga Beginner Set contains the basic material to start drawing manga. In a step-by-step tutorial, artist Yutaro J. Miralles Kobayashi (@yuta_mirakoba) explains the basics of drawing manga. Among the included materials are three Tombow ABT PRO alcohol-based markers with two tips. A flexible and easily controllable nylon brush tip, that is perfect for coloring manga and the other a wise chisel tip for even application of color and outlines. Also available on the set is our beloved MONO 100 pencil for creating preliminary drawings and sketches, our MONO XS Eraser and a MONO drawing pen, that is the perfect fineliner for outlines and details.

About Manga

Mangas are comics that are mostly produced in black and white and originate from Japan. They tell stories with the help of images – and you read them in the Japanese way from right to left. Special features of the painted characters include their large eyes and often expressive faces. Nowadays, single pictures in the Japanese style of comics and caricatures are also referred to as mangas as well as the usual picture stories. And some of these are brightly colored! Even manga books in color are no longer an exception. The possibilities of painting in manga style are unlimited.

GLUING

MONO multi

The MONO multi is a liquid glue with two tips: The fine tip is for precise gluing and a soft silicone tip for smooth application of the glue on large areas. It allows two ways of gluing: permanent or repositionable. For the permanent gluing you apply the glue and position it on the desired surface while it is still wet. For the repositionable gluing you have to apply glue on the object, let it dry first and position it on the surface afterwards. The white glue of MONO multi enables strong and clean gluing of paper, cardboard, photos and many other crafting materials such as wood, cork, glass, glitter, plastic and aluminium. The MONO multi liquid glue is acid-free and photo-safe. Content: 25 g.

*Sand erasers do not erase graphite from the paper. Instead the micro sand particles scratch finest layers from the sheet of paper. Possible for ink or ballpoint pen or printer.

MONO zero

The innovative precision eraser MONO zero is an essential utensil for all professional or recreational use that requires pinpoint erasing. MONO zero is available with two differently tips for precise erasing – a round tip with 2.3 mm diameter and a rectangular tip in 2.5 x 5 mm. The slim casing is available in different colors. It has a push mechanism which adjusts the eraser precisely by 0.7 mm. The long sturdy and slim metal tip protects the eraser. Refillable. Plastic parts made of over 80% recycled material (EH-KUSxx, EH-KURxx). Awarded with the iF product design award 2010, the red dot design award 2010 (EH-KURxx and EH-KUSxx). PVC free & latex free. Refills: ER-KUS/-KUR

MONO eraser

MONO dust CATCH

MONO dust CATCH collects its own residues: Small eraser bits stick to the eraser and do not remain on the paper due to a special polymer formula. This enables an especially clean erasing and avoids that drawings are unintentionally damaged by eraser residues. Material: PVC, phthalate free and latex free. Weight: 19 g.

EN-DC

□ 20
 □ 1 / 20 / - / 600

MONO light

MONO light enables an especially soft erasing with excellent erasing results. Due to its solid consistency the eraser sticks less to the paper than standard erasers. Therefore, it can be used even with low pressure and is perfect for delicate papers. A paper sleeve protects eraser from dirt. Due to left-out edges the sleeve does not tear easily when used under pressure. Material: PVC, phthalate free and latex free. Weight: 13 g.

PE-LTS

□ 40
 □ 1 / 40 / - / 1200

MONO eraser

MONO sand

MONO sand „erases“ even ink due to its fine micro sand particles. The micro sand particles scratch finest layers from the sheet of paper instead of erasing graphite from the paper. MONO sand enables a clean erasing without smearing. A paper sleeve protects eraser from dirt. Material: natural rubber, PVC free. Weight: 13 g.

ES-512A

- ☐ 1
☐ 1 / 10 / - / 1200

MONO sand & rubber

MONO sand & rubber combines two functions in one eraser. The light side erases lead, while the darker side with micro sand particles is suitable for the erasing of ink. A handy tool for school, university and workplace. Material: natural rubber. Weight: 13 g.

ES-510A

- ☐ 1
☐ 1 / 10 / - / 1200

MONO smart

MONO smart is an eraser with extra-thin (5.5 mm) erasing surface. It is perfect for the exact erasing of single lines, letters, or digits. MONO smart enables pinpoint and clean erasing. It is the ideal tool for professional and hobby artists, architects, designers and many more. A paper sleeve protects the eraser from dirt. Due to left-out edges the sleeve does not tear easily when used under pressure. Awarded with iF design award 2014. Material: PVC, phthalate free & latex free. Weight: 9 g.

ET-ST

AirPress Pen

The AirPress Pen is always ready to write anywhere and easily masters unusual situations such as writing overhead, on damp paper or in freezing temperatures (down to -5°C) thanks to its unique compressed air technology. It is the ideal companion for outdoor, hobby, school, and professional use. A rubberized grip ensures a pleasantly secure hold even with wet fingers or gloves. The durable, extremely stretchable metal clip allows the AirPress Pen to be securely attached to a pocket or clothing. Awarded with the red dot design award 2010. Ink: black, document-proof according to ISO 12757-2:1998. Ball diameter: 0.7 mm. Refillable. Refill: BR-SF33.

DESIGN WRITING INSTRUMENTS

ZOOM ying

ZOOM ying Hashi

The „ying“ series is a range of rollerballs representing Japanese culture and spirituality based on a unique interpretation. The shape of the pen runs from square to round and resembles chop sticks (Hashi). The golden version features a gold leaf produced in Kanazawa, which is used for art and craftwork as well as for restoration of cultural properties. The platinum version is decorated with a platinum leaf. Both leafs are hand-crafted. The pens are coated with deep and glossy black acrylic paint. Each pen comes in a high-quality gift packaging. Ink color: black. Ball diameter 0.5 mm. Refill: BK-LP03-33.

4 003198 204836

ZOOM ying Samon

Inspired by sand waves (Samon) in a Japanese rock garden, an elaborated wavy pattern is recalled in the surface design of this rollerball. The precise machining and careful carving of aluminum creates the pen's detailed structural style. Available in gray and indigo, two of the traditional Japanese colors. Each pen comes in a high-quality gift packaging. Ink color: black. Ball diameter 0.5 mm. Refill: BK-LP03-33.

ZOOM 707

ZOOM 707 is a Tombow-classic with a strikingly slender shape. The delicate design evokes the form of a dragonfly („Tombow“ is derived from the Japanese word for „dragonfly“). ZOOM 707 is available as ballpoint pen and mechanical pencil, each in four color combinations and one de luxe version. Ballpoint pen ink color: black, ball diameter: 0.7 mm. Mechanical pencil line width: 0.5 mm, degree of hardness: HB. All writing instruments are refillable. Awarded with red dot design award, design-price by Design Centrum Stuttgart and Design Plus Award.
